You can take the tramway just outside the hotel to visit Le Mans, a City of Art and History. The tram runs to the train station in less than 20 minutes, and to the city centre in 15 minutes.

The tram is easy to use and runs until 1 AM.

Old Le Mans features lovely cobblestone streets, a splendid cathedral, ramparts and countless traditional restaurants. You won't want to miss this charming area.

In summer, La Nuit des Chimères uses colourful light displays to illuminate the ramparts with gargoyles, angels, chimera and Le Mans' historical figures, accompanied by music. You can also visit the automobile museum located outside the legendary 24 Hours race track.
